

Steve Waters was born in Jesup, a small town in South Georgia. Fishing as a young boy consisted mainly local lakes, small farm ponds, the Altamaha River and coastal Georgia, from Shellman Bluff to Fernandina Beach, FL. Beach. Steve enjoyed fishing trips with his Dad and Grandfather. The Altamaha river trips sometimes were weekends camping in a tent on a sandbar after setting out Trout lines and bush hooks along the river bank. Simple gear, like a cane pole or a Zebco 202 rod & reel were our tackle of choice in those days.

The Intracoastal Waterway along Georgia's coast provided lots of fun trips catching Speckled Trout, Drum, Croaker and Whiting. Occasionally, venturing off shore 5 miles in Dad's 16' runabout would produce catches of Spanish Mackerel.

In 1993, Steve returned home to Georgia after spending 17 years living and working in southern California. He started an aviation manufacturing business in 1994 eventually becoming a supplier of VIP fixtures to Gulfstream, Piper, Cessna, Boeing & Airbus. He sold the business in April 2014.

In 2010 Steve married his sweetheart, Sheila. Steve and Sheila retired in April 2015. Together, they enjoy spending a lot of time volunteering at church, boating on Lake Lanier and traveling. God is GREAT and Life is Good!
